

Company Profile

Flyorange Kite had more than 30 years of kite production experience, and we have a professional R&D team, the employees are more than 150, and our workshop area over than 6,000 m². We can develop and design various types of large, medium, small, single and dual line stunt kite, with an annual production capacity of 1.2 million.

Kite is a functional product that can fly high and stably, which can make every player feel happy and a great sense of contentment. We had our own kite production standard system to achieve our high quality standards. We own the ISO quality management system certification, and with the high-quality products, we successfully helped our cooperative customers to continuously expand the international market. The products are exported in many countries, such as Germany, Spain, France, Italy, the United States, England, Belgium, Singapore, India, Russia, and so on.

We Looking forward to cooperation with you!

Our Office Room

We are always trying our best to make our customers satisfied. Establish long term and win-win business relationships with all our customers, share the success and enjoy the happiness of spreading beauty to the world together . Please feel free to contact us for more information, we assure you of our best attention at all times.
